BADGERS!**

BROCK UNIVERSITY

ATHLETICS TURF FIELD FUND

PUSH ON!

“Playing rugby has been my passion for many years, and playing with Brock has been a dream come true. Unfortunately, playing has been very challenging due to the field. Receiving a new field would allow all of our teams enough time to practice and play the sport we love.”

- KATIE FAUST (WOMEN’S RUGBY)

WHAT WILL THE TURF FIELD DO FOR STUDENTS?

- **Allow longer playing seasons**
- **Fewer games/ practices cancelled**
- **Better playing surfaces**
- **Less travel time to games/ practices**
- **Fewer injuries**
- **Reduced costs for players**

BENEFITS OF ARTIFICIAL TURF:

- **Lower maintenance costs than real grass**
- **Can be played on at all times**
- **Look and feels real**
- **Environmentally friendly (saves water)**
- **Pesticide free**

WHAT IS A TURF FIELD?

AstroTurf is artificial grass that can be used to replace conventional sports fields. It is made up of a polyethelene blend of fibers, a bottom layer of silica sand, and cryogenic rubber.

WHY DO WE NEED A NEW FIELD?

Brock University has provided an extensive athletics department for students so that they are able to work, study, and play. Currently, teams being forced to train and play off campus, and pay out of pocket to rent their time on the field.

Your donations would provide students with the ability to play on campus to save students money and time, for years to come.

HOW MUCH?

**Base Preparation: \$320,000
Materials: \$450,000
Maintenance: \$50,000**

Total: \$770,000
